

Groupe Michel Iderne (G.M.I.) has been manufacturing health products since 1993, with:

- DGCCRF registrations (health products regulatory French authorities)
- Authorizations, registrations and patents in several countries or world regions such as Russia, U.S.A., Europe, China, Maghreb, sub-Saharan Africa, ...

Over the years, our products have received high marks for quality and are recognized as effective in different countries of the world.

G.M.I. studied the list of prohibited substances and methods for 2020, posted by WADA on the Official Website. It has been established that WADA prohibited substances and methods are not used in production and are not part of the products listed below.
